THIS CONTRACT is entered into in the State of California by and between the County of San Bernardino, hereinafter called the County, and

Name City of Rialto hereinafter called CONTRACTOR

Address Rialto Police Department
128 North Willow Street

Rialto, CA 92376-5830

Telephone (909) 820-2569 Federal ID No. or Social Security No. _____

IT IS HEREBY AGREED AS FOLLOWS:

(Use space below and additional bond sheets. Set forth service to be rendered, amount to be paid, manner of payment, time for performance or completion, determination of satisfactory performance and cause for termination, other terms and conditions, and attach plans, specifications, and addenda, if any.)

FIRST AMENDMENT

In the contract between the City of Rialto and the County of San Bernardino, Contract No. 02-732, the following changes are hereby made and agreed to effective July 1, 2003:

1. Paragraph 7 is hereby amended to read as follows:
 7. ISD will act as teleprocessing network service manager and the COUNTY will offer two types of network services to the CONTRACTOR as detailed on the Teleprocessing Network Services "Exhibit A" attached hereto and incorporated herein by reference. These services are generally described as follows:
2. Paragraph 7, subsection b) is hereby amended to read as follows:

- b) Class B - COUNTY provides data circuit and modems, and specific data communication support devices of problem isolation and resolution from COUNTY's Central Computer or County Wide Area Network (WAN) to the last component of ISD-supplied equipment (usually the modem on the end of the circuit for non-WAN connections or router for WAN connections). The CONTRACTOR is responsible for the coordination of all problem isolation and resolution involving equipment and software not supplied by ISD. Charges for Class B services shall be two network units at the standard ISD network rate at each CONTRACTOR location. Teleprocessing equipment additions are subject to ISD review and approval as COUNTY Central Computer compatible devices.

Each request to add equipment for teleprocessing services will be evaluated independently, depending upon specific circumstances of each CONTRACTOR location and ability of COUNTY to provide additional services.

3. Replace Schedule "A" attached thereto, referred to in Paragraph 8, with Schedule "A" attached hereto and incorporated herein by reference.

Except as amended, all other terms and conditions of this contract remain as stated therein.

EXHIBIT “A”
TELEPROCESSING NETWORK SERVICES SELECTION
CITY OF RIALTO

CLASS “A” SERVICE – COUNTY EQUIPMENT

The County’s Information Services Department (ISD) will provide complete coordination¹ of data communication installation, problem isolation, and resolution from the County Central Computer to the Customer workstation. This does not include customer-owned printers of any type.

ISD will coordinate a pre-installation site survey identifying all necessary pre-installation site requirements. In the case of county departments, this will also include the ordering of cabling, data circuits, modems, and electrical power. In the case of non-county customers, this service will be limited to the definition or pre-installation site requirements and the ordering of the data communications circuits and modems.

CLASS “B” SERVICE – CUSTOMER EQUIPMENT

The County’s Information Service Department (ISD) will provide coordination² for data communications problems including problem isolation and resolution from the County Central Computer or County Wide Area Network (WAN) to the last component of ISD-supplied equipment (usually the modem on the end of a data circuit for non-WAN connections or router for WAN connections).

The customer is responsible for the coordination of the isolation and resolution of all problems involving hardware and software not supplied by ISD. Specifically excluded from ISD support are customer-supplied distribution processors, printers, display stations, PCs, Local Area Network (LAN) switches; all customer cabling such as terminal distribution cables (coax, twin-ax, twisted pair, etc.) modem interface cables; all customer supplied jacks, switches, and splitters; distributed software, including mini-based, micro-based, and PC desktop software; and, all consumables such as printer ribbons and paper.

ISD will coordinate a pre-installation site survey identifying all necessary pre-installation site requirements. This service will be limited to the definition of those requirements and the ordering of the data communications or WAN circuits, modems, and WAN equipment (routers and etc). The customer will be responsible for making all site preparations prior to the installation of data communications or WAN service.

¹ Complete coordination includes all involved hardware, software, (both host-based and distributed), all data circuits, modems, the reporting, tracking, diagnosing, and directing of all necessary vendors to restore full equipment operations and normal data communications in a timely manner.

² Coordination includes working with all necessary vendors in an effort to restore normal data communications in a timely manner. Reporting, tracking, and diagnosing of problems related to customer supplied equipment and software is the responsibility of the customer.

**SCHEDULE A
TELEPROCESSING COSTS
CITY OF RIALTO POLICE DEPARTMENT
FY 2003/2004**

SERVICE:	MONTHLY COST*
